# THE SENATE FISCAL AGENCY

The Senate Fiscal Agency is governed by a board of five members, including the majority and minority leaders of the Senate, the Chairperson of the Appropriations Committee of the Senate, and two other members of the Appropriations Committee of the Senate appointed by the Chairperson of the Appropriations Committee with the concurrence of the Majority Leader of the Senate, one from the minority party.

The purpose of the Agency, as defined by statute, is to be of service to the Senate Appropriations Committee and other members of the Senate. In accordance with this charge the Agency strives to achieve the following objectives:

1. To provide technical, analytical, and preparatory support for all appropriations bills.
2. To provide written analyses of all Senate bills, House bills and Administrative Rules considered by the Senate.
3. To review and evaluate proposed and existing State programs and services.
4. To provide economic and revenue analysis and forecasting.
5. To review and evaluate the impact of Federal budget decisions on the State.
6. To review and evaluate State issuance of long-term and short-term debt.
7. To review and evaluate the State's compliance with constitutional and statutory fiscal requirements.
8. To prepare special reports on fiscal issues as they arise and at the request of members of the Senate.

The Agency is located on the 8th floor of the Victor Office Center. The Agency is an equal opportunity employer.

## OVERVIEW

Governor Granholm on March 6, 2003, transmitted her fiscal year (FY) 2003-04 State Budget Message to the Legislature. The Governor's FY 2003-04 budget contains recommendations to provide for \$37.9 billion of Adjusted Gross appropriations. Included in this appropriations total are \$11.2 billion of Federal funds, \$17.1 billion of State Restricted funds, \$1.0 billion of local and private funds, and \$8.6 billion of General Fund/General Purpose (GF/GP) appropriations. [Table 1](#) and [Figure A](#) provide summaries of the overall makeup of the FY 2003-04 appropriations as recommended by the Governor.

[Tables 2-4](#) and [Figures B-D](#) provide department-by-department detail of the Governor's appropriation requests for FY 2003-04 compared with FY 2002-03 year-to-date appropriations. The tables and figures present appropriation data in terms of Adjusted Gross, State Spending from State Resources, and GF/GP appropriations. Adjusted Gross appropriations are defined as total appropriations of each department less funds transferred in from other State departments. State Spending from State Resources appropriations are defined as Adjusted Gross appropriations less Federal, local and private funds. General Fund/General Purpose appropriations are the residual unrestricted portion of the budget over which the Governor and the Legislature have the most flexibility in establishing appropriation policy. The Governor's budget proposes a 1.4% decrease in Adjusted Gross appropriations, a 0.9% decrease in State Spending from State Resources appropriations, and a 2.4% decrease in GF/GP appropriations.

The Governor's budget message is developed based on a consensus revenue estimate agreed to on January 14, 2003. These consensus revenue estimates are the basis for the appropriation and tax policy changes contained in the Governor's budget recommendations. The FY 2003-04 GF/GP consensus revenue estimate represents a \$107.7 million or 1.3% growth from the FY 2002-03 consensus revenue estimate. The FY 2003-04 School Aid Fund (SAF) consensus revenue estimate represents a \$2.9 million decline from the FY 2002-03 consensus revenue estimate. The Governor's budget includes several policy changes that will have an impact on the level of both GF/GP and SAF revenues that will be available to support appropriations. The Governor is recommending a total of \$400.0 million of adjustments to the FY 2003-04 GF/GP consensus revenue estimate. The Governor is recommending a total of \$170.3 million of adjustments to the FY 2003-04 SAF consensus revenue estimate.

### Summary of Major Changes for FY 2003-04

The Governor's FY 2003-04 budget proposal marks the first State budget that Governor Granholm has transmitted to the Legislature. The Governor's budget contains revenue increases from proposed State tax policy changes, revenue increases from proposed State fee increases, the refinancing of existing State debt to reduce debt service expenditures, assumptions concerning increases in Federal funds to finance human service programs, appropriation increases to cover projected State expenditure needs, appropriation reductions to existing State programs, accounting changes to provide one-time revenue sources in the budget, and other proposed changes in State laws that will reduce expenditure requirements.

As previously stated, the Governor's FY 2003-04 budget recommendation is built on assumptions as to the level of revenues available to support appropriations. [Table 5](#) provides a summary of the amount of additional GF/GP revenues that will be available to support the Governor's FY 2003-04 GF/GP appropriation recommendations. Based on current law tax policy, FY 2003-04 GF/GP revenues will total \$8.19 billion. The budget recommendation includes \$400.0 million of adjustments to increase GF/GP revenues, which will result in total FY 2003-04 GF/GP revenues of \$8.59 billion. These revenue adjustments include: a \$10.0 million transfer from the Employment Security Fund, \$268.8 million of revenues from the proposed reductions in State revenue sharing payments below the statutory requirements, \$108.6 million of tax policy changes, \$2.0 million from the sale of the Detroit Plaza State office building, and a \$10.6 million transfer of sales tax revenues from the Comprehensive Transportation Fund.

Comparing the \$8.59 billion of FY 2003-04 GF/GP revenues with year-to-date FY 2002-03 GF/GP appropriations leads to a \$209.8 million or 2.4% reduction. Table 6 provides a high level summary of the three approaches recommended by the Governor to deal with the \$209.8 million reduction in FY 2003-04 GF/GP appropriations. This \$209.8 million appropriation reduction is made up of \$815.2 million of GF/GP appropriation increases, \$368.3 million of GF/GP appropriation reductions, and \$656.7 million of GF/GP appropriation reductions that will be offset by higher State restricted or Federal revenue.

Table 7 provides a summary of the \$815.2 million of GF/GP appropriation increases recommended in the FY 2003-04 budget. These appropriation increases can be grouped into three categories. First are increases dealing with caseload and general cost adjustments. These include funding increases in the Department of Community Health for Medicaid and other cost increases, Department of Corrections funding increases reflecting prison operational cost, and Family Independence Agency caseload and general cost adjustments. The second general category of cost increases is debt service-related costs. These increases involve debt service costs of State Building Authority bonds in the Capital Outlay budget and general obligation bond debt service cost increases in the Department of Treasury budget. The final category of cost increases is the Department of Community Health increases to offset the loss of State Restricted and Federal funds in the Medicaid program.

Table 8 provides a summary of the \$368.3 million of GF/GP appropriation reductions recommended in the FY 2003-04 budget. The major reductions are a \$120.6 million reduction in State operations funding for community colleges and public universities, a \$30.0 million reduction in pharmaceutical expenditures in the Department of Community Health, a \$10.7 million or 51% reduction in arts and cultural grants, and a variety of other reductions spread across all State departments.

Table 9 provides a summary of \$656.7 million of GF/GP appropriation reductions that are offset with increased State Restricted or Federal funds. These fund shifts result in a reduction in GF/GP appropriations, but they do not reduce the Gross appropriation authorization for the program affected. Included in this \$656.7 million are \$119.2 million of fee increases and \$537.5 million of other fund shifts. The largest fee increases are assessments levied against medical providers in the Department of Community Health, environmental fees in the Department of Environmental Quality, regulatory fees in the Department of Consumer and Industry Services, and fee increases in the State Police budget to fund State Police trooper operations. The other fund shifts include increases in Federal funds in the Department of Community Health and the Family Independence Agency and a \$198.4 million fund shift in the K-12 School Aid budget from GF/GP appropriations to a one-time transfer from a revenue sharing reserve account.

**FY 2002-03 Supplemental Appropriations.** The Governor's FY 2003-04 State Budget Message contains one recommended FY 2002-03 supplemental appropriation. The recommended supplemental appropriation is an adjustment to the current appropriation for the State Medicaid program to reflect the projected Gross expenditures in the program. The Legislature is still considering a February 19, 2003, FY 2002-03 supplemental appropriation request from the Office of the State Budget. While the Governor's FY 2003-04 budget recommendation contains only one new FY 2002-03 supplemental appropriation, it does contain boilerplate language dealing with the use of unexpended FY 2002-03 GF/GP appropriations. Under current statutory requirements, any unexpended GF/GP appropriations at the close of the fiscal year lapse to the General Fund. The Governor is recommending a change in this policy for FY 2002-03. The recommendation is that State departments could retain 50% of FY 2002-03 GF/GP appropriation lapses and spend these funds in FY 2003-04. This proposal represents a very significant change in State fiscal policy and may require a change from current statutory provisions.

**Proposed State Tax Policy Changes.** The budget recommendation includes numerous proposals to increase State tax revenues that will be contingent on legislative approval of a variety of tax bills. These tax policy changes, which would have an impact on the State income tax, the single business tax, the use tax, the State real estate transfer tax, the insurance company premiums tax, the diesel motor fuel tax and general penalties for delinquent taxpayers, would result in an FY 2003-04 \$108.6 million GF/GP revenue increase, a \$20.3 million School Aid Fund revenue increase and a \$38.9 million

increase in restricted transportation fund revenues. In addition, the School Aid Fund budget also assumes a \$50.0 million revenue increase from the proposed expansion of the Michigan State Lottery. The lottery would expand by offering more on-line betting opportunities in bars and restaurants across the State. These proposed tax policy changes are discussed in detail in the Economic and Revenue Forecast portion of this report.

**Federal Fund Assumptions.** The recommended appropriation of \$11.2 billion of Federal funds in the overall State budget is based on Federal budget policy currently in place continuing in FY 2003-04. The Family Independence Agency budget is built on a continuation of the existing Federal Temporary Assistance for Needy Families welfare block grant. The United States Congress is currently debating the reauthorization of this program which expired on September 30, 2002. The budget also assumes increased Federal funds in several areas of the State Medicaid program. Some of these increased Federal Medicaid funds will be dependent on the approval of Medicaid waivers by the U.S. Department of Health and Human Services.

**State Revenue Sharing.** The Governor is recommending that revenue sharing payments to cities, villages, townships and counties be funded at a level that is 3.0% below the FY 2002-03 appropriations. Total FY 2003-04 revenue sharing payments would equal \$1.41 billion, or \$268.8 million below the statutory sales tax distribution provided for in the State Revenue Sharing Act. The Governor is also recommending the elimination of a revenue sharing reserve that has been used to make October constitutional revenue sharing payments from sales taxes collected in the prior July through September period. This accounting change would provide a one-time revenue source of \$198.6 million. The Governor is recommending that this revenue be deposited in the State School Aid Fund.

**General Budget Language.** The budget includes several recommendations concerning standard budget language. The budget continues the past practice of freezing classified State employment levels unless exceptions are granted by the State Budget Director. The budget also contains language dealing with the appropriation of unanticipated Federal, State Restricted, and local and private funds that might become available after the budget is enacted.

**Proposed Fee Increases.** The budget includes \$130.2 million of proposed fee increases. Table 10 provides a summary of all of the fee increases included in the budget. The majority of these proposed fee increases would require statutory changes to be implemented, and the revenues from most of the fee increases are used to offset GF/GP funded appropriations.

**Unclassified Salaries.** The budget includes no funding increases for the salaries of unclassified State employees.

**Classified Salaries.** The budget includes no funding for the 3.0% pay increase State classified civil service employees are scheduled to receive on October 1, 2003. The cost of this negotiated pay increase, including retirement costs increases, is \$108.0 million of Gross appropriations and \$60.4 million of GF/GP appropriations. The Governor has stated that the State will be attempting to negotiate with State employee unions in an effort to eliminate or decrease this salary adjustment. If the State does not achieve these savings through negotiations, State departments and agencies will be forced to pay these costs out of existing appropriations.

**Retirement Costs.** The budget includes no funding for the State costs associated with increased contribution rates for the 35,000 State employees who are members of the State Employees Retirement System. Absent any FY 2003-04 pay adjustment, the increased employer contribution rates into the State Employees Retirement System are estimated to be \$99.1 million of Gross appropriations and \$53.5 million of GF/GP appropriations. This retirement cost increase equates to 3.72% of the estimated payroll of State employees in the State Employees Retirement System. The Governor has stated that the State will be attempting to negotiate with State employee unions in an effort to eliminate or decrease this cost increase. If the State does not achieve these savings through negotiations, State departments and agencies will be forced to pay these costs out of existing appropriations.

**State Employee Insurance Costs.** The budget includes no funding for the projected cost increases in health care coverage for State employees. Health insurance costs for State employees are estimated to increase by \$49.5 million of Gross appropriations and \$26.1 million of GF/GP appropriations. The Governor has stated that the State will be attempting to negotiate with State employee unions in an effort to eliminate or decrease this cost increase. If the State does not achieve these savings through negotiations, State departments and agencies will be forced to pay these costs out of existing appropriations.

**Tobacco Settlement Appropriations.** The Governor recommends the appropriation of \$307.0 million of tobacco settlement funds. These tobacco settlement fund appropriations are summarized in [Table 11](#). The Governor also recommends a statutory change in the current distribution of tobacco settlement funds between the Merit Award Trust Fund and the Tobacco Settlement Trust Fund. Under current law, 75.0% of the tobacco settlement revenues is deposited into the Merit Award Trust Fund and 25.0% is deposited into the Tobacco Settlement Trust Fund. The Governor recommends that these distributions be changed to 33.4% to the Merit Award Trust Fund and 66.6% to the Tobacco Settlement Trust Fund. The major change recommended in the appropriation of tobacco settlement funds is a proposed decrease in the amount of the existing Merit Award Scholarship from \$2,500 to \$500 to each qualified graduating high school student. The recommendation also significantly increases the overall amount of tobacco settlement funds that are funding the State Medicaid program.

**Community Colleges.** The budget includes a 6.74% reduction in the funding of community colleges operations. This funding decrease consists of a 6.24% GF/GP funding reduction and a 0.5% reduction from funds financed with Merit Award Trust Fund revenues. The recommendation applies this proposed funding reduction on a proportional basis for each community college.

**Community Health.** The budget is built on four primary fiscal assumptions. These assumptions are savings from the annualization of current-year appropriation reductions, use of new revenue sources to support the State Medicaid program, adult health programs and benefit restructuring, and other Medicaid policy changes and savings. Savings from the annualization of current year appropriation reductions savings involve the full fiscal year savings from policies put in place during portions of the prior fiscal year. New revenue sources for the Medicaid program include increased funding from the Tobacco Settlement Trust Fund, an increase in Michigan's Federal Medicaid match rate, and several new Medicaid special financing proposals involving the use of State assessments on medical providers. The changes in adult health programs primarily involve a proposal to replace the existing State Medicaid program and related county programs for indigent persons and replacing medical coverage of these people by enrolling them in the Children's Health Insurance Program under a Federal waiver. Included in other Medicaid policy changes and savings are proposals to reduce pharmaceutical costs by pooling purchases of prescription drugs with other states and making changes in the type of coverage for children in the Children Special Health Care Services program.

**Corrections.** The budget is built on several assumptions concerning policy changes that will have an impact on the overall number of inmates in the State corrections system. The budget assumes a change in the Truth-in-Sentencing statute that would allow the Department to release inmates from prison before they have served their minimum sentence. These prisons would be placed in halfway houses or on electronic monitoring devices. This policy change is estimated to reduce the prison population by approximately 1,350 inmates with a projected cost savings of at least \$25.0 million. The budget also assumes the continuation of current departmental policy of further prison diversion that was implemented during the current fiscal year.

**Higher Education.** The budget includes a 6.74% reduction in the funding of public university operations. This funding reduction consists of a 6.24% GF/GP reduction and a 0.5% reduction from funds financed with Merit Award Trust Fund revenues. The recommendation applies this funding reduction on a proportional basis for all public universities. The recommendation also reduces by 6.74% the State funding for financial aid programs. The budget also includes a proposal to combine the seven existing needs-based financial aid programs into one new needs-based financial aid program referred

to as the Michigan Opportunity Scholarship Program. Students attending both public and private colleges and universities in the State would be eligible for this financial aid.

**School Aid.** The budget proposes adjustments to the previously enacted FY 2003-04 School Aid appropriation bill. The proposed adjustments are necessary to eliminate a projected \$364.3 million FY 2003-04 School Aid Fund deficit that exists between estimated revenues and enacted appropriations. This projected deficit is eliminated by a combination of new revenue sources and appropriation reductions. The new revenue sources include \$50.0 million of additional lottery revenues from new on-line lottery games, \$100.0 million of revenue from the refinancing of existing State school bond loans, and \$20.3 million from proposed tax policy changes. School Aid Fund appropriation reductions include the reduction of several categorical funds and the elimination of other categorical funds. The basic foundation allowance would continue at the \$6,700 level included in the current FY 2003-04 School Aid Fund appropriation.

**State Police.** The budget is built on a \$46.1 million or 16.6% reduction in the level of GF/GP appropriations. This GF/GP funding reduction is offset by two proposed fee increases and one proposed transfer of funds from another department that will result in a 2.0% increase in Adjusted Gross appropriations. The fee increases funding this budget are a \$3 increase in driver license fees and a .35% surcharge on certain property insurance premiums. These fee increases along with the transfer of \$12.7 million of existing drivers license fee revenues from the Department of Transportation budget will provide the necessary funding to offset the GF/GP funding reduction. The fee increases also will provide the funding for a State Police trooper school to train new State troopers.

**Transportation.** The budget provides for a 3.4% increase for Adjusted Gross appropriations. This funding increase assumes the legislative approval of a 4-cent-per-gallon increase in the diesel motor fuel tax. This tax increase will generate \$38.9 million to be distributed through the statutory funding formulas.

**Treasury-Debt Service.** The budget includes a \$52.8 million or 269.7% GF/GP funding increase for State debt service payments on general obligation bonds. This large funding increase results from a one-time saving on debt service that was realized during the current fiscal year from the refinancing of these bonds.

### **Payments to Units of Local Government**

The Governor's FY 2003-04 budget recommendation includes \$15.97 billion of estimated payments to units of local government. This exceeds the required level of State payments to units of local government pursuant to Article IX, Section 30 of the State Constitution of 1963 by \$2.9 billion. Table 12 provides a summary of this estimate.

### **State Employment**

Table 13 and Figure E provide a comparison of classified and exempted full-time equated (FTE) positions recommended by the Governor with the appropriated levels of FTEs for FY 2002-03. The Governor's FY 2003-04 recommendation includes funding for 59,299.0 FTEs. This represents a 3,445.2 FTE decline or 5.5% below the current year level. The majority of these reductions simply reflect an adjustment in the FTE levels of each department to correspond with the actual level of FTEs currently employed in that department.

### **Projected Year-End Balances**

Combining the Governor's FY 2003-04 appropriation recommendation with the consensus estimates leads to updated estimates of the FY 2003-04 GF/GP and SAF year-end balances. Assuming that all of the Governor's revenue and appropriation recommendations are enacted, the FY 2003-04 GF/GP budget will close the year with a \$0.3 million balance. The SAF budget will close FY 2003-04 with a zero year-end balance. Tables 14 and 15 provide a summary of these year-end balance estimates.

**A. PROGRAM REDUCTIONS/ELIMINATIONS**

<b>1. Fruit and Vegetable Inspections</b>	Gross GF/GP	(300,000) (300,000)
The Governor's budget proposal reduces funding for the Fruit and Vegetable Inspection Service, which provides third party grading services and verification of fruit and vegetable quality.		
<b>2. Regulatory Seed Program</b>	FTE Gross GF/GP	(4.5) (452,000) (452,000)
The Governor's budget proposal eliminates the Seed Inspection Program. This program assures that seed used for crop production meets label guarantees and is free from noxious weeds that are difficult and expensive to control. Staff in this program review seed product labels, conduct inspections, and perform laboratory analysis.		
<b>3. Conservation Districts</b>	Gross GF/GP	(195,500) (195,500)
The Governor's budget reduces the line item that provides grants to the State's 79 local conservation districts. This program provides grants for training district personnel as well as grants for basic operations (\$20,000 per district). The funding reduction would affect the basic operations grants.		
<b>4. Southwest Michigan Tourist Council</b>	Gross GF/GP	(45,300) (45,300)
The Governor's budget eliminates the grant to the Southwest Michigan Tourist Council. This program provides free Michigan-grown agricultural products to visitors at the welcome center in Benton Harbor.		
<b>5. Migrant Labor Housing</b>	Gross GF/GP	(30,000) (30,000)
The Governor's budget reduces funding for migrant labor housing grants. This program supports cost-share grants to Michigan farmers who supply migrant laborers with housing.		
<b>6. Horse Shows</b>	Gross GF/GP	(23,300) (23,300)
The Governor's budget eliminates funding for horse show grants.		

**FY 2003-04

**B. FTE ADJUSTMENTS**

FTE (61.0)

The Governor's budget reduces the appropriated level of full-time equated (FTE) positions in the budget to adjust for the most recent early retirement program for State employees and for funding reductions associated with Executive Order 2002-22 and Executive Order 2003-3.

**C. UNCLASSIFIED SALARIES**

Gross 0  
GF/GP 0

**Commissions and Boards Per Diem.** The Governor's budget eliminates the authorization to provide gubernatorially-appointed boards and commissions, such as the Commission of Agriculture, with per diem payments. This authorization is contained in FY 2002-03 boilerplate language. The funding (\$63,300 Gross / \$39,500 GF/GP) for these payments was not removed from the budget.

**D. FEE INCREASES**

Gross 0  
Restricted 549,400  
GF/GP (549,400)

The Governor's budget proposal includes anticipated revenue from a variety of fee increases. The additional fee revenue is used to replace an equal amount of GF/GP funding in the budget. Some of the fee increases will require legislation, while other fees can be adjusted by the Commission of Agriculture.

**E. FUNDING SHIFTS**

**1. Horse Racing Revenue**

Gross (2,025,000)  
Restricted 0  
GF/GP (2,025,000)

The Governor's budget proposal reduces a number of horse racing grant line items (12.8% reductions) and administrative line items that are funded with revenue from the Agriculture Equine Industry Development Fund. The proposal then redirects this revenue to various departmental administrative line items to replace an equal amount of GF/GP support. The horse racing program funding cuts and funding shifts result in \$2,025,000 of GF/GP savings.

**2. Various Funding Shifts**

Gross 0  
Federal 200,000  
Restricted 275,000  
GF/GP (475,000)

The Governor's budget also replaces GF/GP resources with an equal amount of anticipated available restricted revenue, either State or Federal, in various administrative line items. The State restricted revenue is available from carryforward balances. Federal revenue of \$200,000 is being used to support rent/building occupancy charges for selected programs.

<b>G.</b>	<b>OTHER ISSUES</b>		
<b>1.</b>	<b>Early-Out Adjustment</b>	Gross	(693,800)
		GF/GP	(693,800)
	The Governor's budget makes reductions to account for the most recent early retirement program for State employees. The adjustment reduces funding associated with November 2002 retirees, annual leave payouts, compensatory time payouts, and deferred hours payouts.		
<b>2.</b>	<b>Administrative Savings</b>	FTE	(1.0)
		Gross	(339,900)
		GF/GP	(339,900)

	The Governor's budget includes other adjustments associated with internal transfers to align the budget with the most current organizational structure. The budget also includes adjustments to the level of restricted revenue appropriated to bring the budget more in line with anticipated Federal and State restricted resources.		
<b>4.</b>	<b>Information Technology</b>	Gross	(185,300)
		GF/GP	(185,300)
	The Governor's budget reduces the GF/GP appropriation for information technology services provided by the Department of Information Technology (DIT). The Department of Agriculture uses this funding to purchase services from DIT.

**C. FUNDING SHIFTS**

<b>Prisoner Reimbursement.</b> The Attorney General currently receives \$301,700 for incurred costs related to obtaining reimbursements from prisoners pursuant to the State Correctional Facility Reimbursement Act (MCL 800.401 et seq.). The Governor's recommendation increases this funding by up to \$800,000, and reduces State General Fund support by the same amount. Boilerplate included by the Governor (Section 308) limits funding to amounts collected in excess of \$1,131,000 from prisoner reimbursement. The language also allows the Attorney General to use the \$800,000 for expenses of defending the State in civil actions filed by prisoners. This use of funds is inconsistent with Section 6 of the State Correctional Facility Reimbursement Act, which provides that reimbursements must fund costs of investigations under the Act, and the balance must be credited to the State General Fund. **A. PROGRAM INCREASES**

**1. Department of Military Affairs**

The Governor is recommending five new construction projects for the Department of Military Affairs, funded primarily with Federal money and State matching funds provided by the Armory Construction Fund (which receives money from the sale of surplus armories and other properties). Recommended language makes the appropriations for the five projects contingent upon the availability of the Federal and Armory Construction Fund revenue. The new projects include:

Gross	17,100,000
Federal	15,760,000
Restricted	1,340,000
GF/GP	0

- a. Aviation Support Facility** - a new hangar and support buildings at the Grand Ledge army aviation support location. Total project cost \$20,800,000; Federal share \$20,460,000; Armory Construction Fund share \$340,000.
- b. United States Property and Fiscal Office** - a new facility to be located in Lansing to house administrative functions of the Federal side of the Michigan National Guard. Total project cost \$6,700,000; Federal share \$6,200,000; Armory Construction Fund share \$500,000.
- c. Shiawassee Armory** - a new armory to replace the existing facility located in Owosso. Total project cost \$5,000,000; Federal share \$3,750,000; Armory Construction Fund share \$1,250,000.
- d. Bachelor Officer Quarters - Camp Grayling** - new space for officers and other guests visiting the Camp in Grayling. Total project cost \$1,800,000; Federal share \$1,800,000.
- e. Conference Center - Camp Grayling** - a new conference center to provide space for 200 people and a dining facility at the training camp in Grayling. Total project cost \$1,800,000; Federal share \$1,800,000

The one-time appropriation of \$19,000,000 for the Lansing readiness center is eliminated in the Governor's recommendation.

**2. Department of Transportation**

**Buildings and Facilities** - The recommendation eliminates several one-time appropriations totaling \$5,400,000 and provides for several new projects, including:

Gross	0
Restricted	0
GF/GP	0

- a. **Detroit** - transportation service center, total project cost \$3,300,000 (which includes a proposed transfer of \$800,000 from unspent money from the new project office at Brighton).
- b. **Gaylord** - regional office building, total project cost increased from \$1,000,000 to \$2,800,000 (which includes a proposed transfer of \$1,000,000 from unspent money at the Grayling transportation service center project).
- c. **New Buffalo** - welcome center, water and sewer upgrades, total project cost \$500,000.
- d. **Other** - various projects at salt storage buildings, maintenance garages, and equipment storage buildings, total project costs \$5,800,000.

The total program appropriation is \$9,600,000.

**3. State Building Authority Rent**

The recommendation provides an increase for rent payments that the State makes to the State Building Authority for building projects at colleges, universities, and State agencies. The State Building Authority uses those rent payments to make debt service payments on bonds sold to finance project construction costs.

**B. PROGRAM REDUCTIONS/ELIMINATIONS**

**1. State Agency Special Maintenance**

The Governor's recommendation continues the FY 2002-03 General Fund/General Purpose (GF/GP) recommendation for State agency special maintenance. The total GF/GP special maintenance appropriation for all agencies (including that used to match Federal funding for the Department of Military Affairs) is \$2,000,000. The Governor recommends transferring all remaining special maintenance appropriations into one line item administered by the Department of Management and Budget. In addition, the appropriation for special maintenance funded from building occupancy charges by State agencies occupying space in State buildings is cut in half due to reduced appropriations provided to the user agencies.

Gross	(2,000,000)
IDG	(2,000,000)

**2. Department of Natural Resources**

**a. State Parks.** The Governor recommends reducing funds for State park maintenance, supported by the State Park Improvement Fund and the State Park Endowment Fund, as this money is being recommended to replace General Fund support for Department operations. The remaining \$1,000,000 appropriation is recommended to be made available contingent upon approved increases in camping fees.

Gross	(6,700,000)
Restricted	(6,700,000)

Restricted	(1,500,000)
GF/GP	0

**c. Waterways.** The Governor's recommendation eliminates one-time appropriations for nine projects totaling \$9,880,000 and includes five new boating projects. The new projects are:

Gross	(14,900,000)
Federal	(3,000,000)
Restricted	(11,900,000)
GF/GP	0

**1. South Haven - Marina Dock Rehabilitation** - This publicly funded harbor has 218 slips located on the Black River with access to Lake Michigan. The project includes dock replacement and Americans with Disabilities Act (ADA) upgrades. Total project cost \$1,250,000; State share \$625,000; local share \$625,000.

2. **Harrisville – Restroom/Shower Building** - Harrisville Municipal Marina is a publicly funded, 102 slip marina. The project includes an expanded bathhouse/restroom facility that is ADA compliant. Total project cost \$1,200,000; State share \$600,000; local share \$600,000.
3. **Traverse City – Boating Access Site Rehabilitation** - As part of the larger waterfront improvements which include a breakwater, and harbor upgrades, the boating access site improvements will replace an older ramp with a new one. Total project cost \$180,000; State share \$135,000; local share \$45,000.
4. **Crystal Lake – New Site Construction** - This is a new boat launch site on Crystal Lake in Benzie County. The development will include parking for approximately 125 vehicles, two accessible toilet buildings, staging pier for retrieving and launching boats, and launching ramps. Total project cost \$550,000, all State funds.
5. **Trout Lake** - This new boat launch site is in the Island Lake Recreation Area in Livingston County and will replace the existing gravel launch. The project also will provide paved parking, upgraded toilet buildings, a skid pier, and walkways. Total project cost \$310,000, all State funds.

The recommendation also includes reductions to other infrastructure, improvement, and maintenance programs totaling \$3,620,000.

### 3. **Aeronautics**

The State's funding obligation for the Northwest Airlines Midfield Terminal project at Detroit Metropolitan Airport has been satisfied. The recommendation continues the funding for the airport safety, protection, and improvement program.

Gross	(210,400)

<b>A.</b>	<b>FEDERAL INCREASES</b>	Gross	992,300
		Federal	992,300
		GF/GP	0
	<b>1. Labor Market Information Systems</b>		
	The Governor's recommended budget includes additional Federal revenue to enhance this program for local workforce development boards. These funds are available from the U.S. Department of Labor.		
	<b>2. NAFTA Trade Adjustment Assistance</b>	Gross	11,000,000
		Federal	11,000,000
		GF/GP	0
	The Governor's budget includes additional Federal revenues that are available due to Federal changes to this employment service program in 2002. These changes include an increase in eligible participants due to including those affected by production shifts to other countries, additional weeks for income support, tax credits for health insurance, and a new program for workers 50 years old or older.		
	<b>3. Federal Adult Education Funding</b>	Gross	150,000
		Federal	150,000
		GF/GP	0
	The Governor recommends an increase in Federal spending authority for the administration line of the Adult Education Program to reflect more accurately anticipated revenues.		
<b>B.</b>	<b>PROGRAM REDUCTIONS/ELIMINATIONS</b>		
	<b>1. Federal Match</b>	Gross	(415,500)
		Federal	(415,500)
		GF/GP	0
	Due to reductions in the Career Education and Vocational Rehabilitation lines through various Executive Orders, the Governor's proposed budget reduces the Federal match for these lines to reflect actual revenues.		
	<b>2. Pre-College Programs in the Engineering and the Sciences</b>	Gross	(900,000)
		GF/GP	(900,000)
	The Governor recommends the elimination of these grants. Funds were awarded to one program in Detroit and one in Grand Rapids to provide engineering and science education programs to under-represented populations in these fields.

**3. Administrative Reductions**

Gross (429,400)  
GF/GP (429,400)

Additional administrative efficiencies are anticipated as a result of the impending Executive Reorganization that will combine this Department with the Department of Consumer and Industry Services.

**4. One Stop Centers**

Gross (180,000)  
GF/GP (180,000)

The Governor recommends reducing the administrative funding for these centers. The proposed FY 2003-04 funding is \$10,000 GF/GP.

**C. UNCLASSIFIED SALARIES**

Gross (110,000)  
GF/GP (110,000)

The Governor recommends eliminating all funding for this line in anticipation of administrative efficiencies through the pending Executive Reorganization.

**D. ECONOMIC ADJUSTMENTS**

**A. PROGRAM REDUCTIONS/ELIMINATIONS**

1.	<b>2002 Early Retirement</b>	Gross GF/GP	(199,100) (199,100)
	The Governor's recommendation eliminates funding associated with one month's salary and annual leave payouts for employees who retired in November 2002.		
2.	<b>Information Technology Reduction</b>	Gross GF/GP	(41,000) (41,000)
	The information technology appropriation for the Department was reduced based on savings that will be achieved by the Department of Information Technology. Savings include renegotiation of vendor contracts to reduce rates paid to vendors, telecommunication rate reductions related to data circuits, consolidation efficiencies, and equipment savings.		
3.	<b>State Officers Compensation Commission (SOCC)</b>	Gross GF/GP	(15,000) (15,000)
	The SOCC meets in every two years, therefore, funding is not required in FY 2003-04.		
4.	<b>Employee Recognition Program</b>	Gross GF/GP	(191,800) (191,800)
	The transfer of the Employee Benefits Program (Item B, below) included the Employee Recognition Program, which is funded entirely from the State General Fund. The Governor is recommending elimination of the program.		
5.	<b>Operations Reduction</b>	Gross GF/GP	(977,200) (977,200)
	The budget includes a general reduction to operations to be achieved through administrative savings.		
6.	<b>Training Reduction</b>	Gross IDG GF/GP	(1,000,000) (1,000,000) 0
	Training provided by the Department of Civil Service is funded by interdepartmental grant charges to State departments. Due to overall reductions in the State budget, funding from departments for training has been reduced. The reduction in Civil Service reflects the decreased funding available from State departments for training.

	<b>Changes in Federal Grants</b>	Gross	33,459,700
		Federal	33,659,700
		GF/GP	(200,000)
	The Governor's budget includes a number of changes to Federal funds received by the Department based on the most recent information on Federal appropriations. The vast majority of these changes represent real funding increases. In one case, \$200,000 in Federal Maternal and Child Health Block Grant money is used to replace GF/GP funding.

	The Governor's budget increases authorization to reflect the FY 2002-03 implementation of a rate increase for CMH Medicaid. This increase was provided by the use of various local CMH revenues to earn Federal matching funds, with all of the money then returned to the CMH boards, for a net increase of over 2% in CMH rates.

<b>3.</b>	<b>Closure of Northville State Hospital</b>	FTE	(304.5)

	Closure of the Northville State Hospital for Mentally Ill Adults is expected to be complete by the start of FY 2003-04. Patients currently in the facility will be transferred either to other State hospitals or to the community. The net effect of the closure is a slight increase in Gross funding as adults in State facilities are not eligible for Medicaid but most who return to the community will be eligible, thus leading to an increase in Federal funds. <b>D.</b>	<b>PUBLIC HEALTH ISSUES</b>		
<b>1.</b>	<b>Heathy Michigan Fund (HMF)</b>	Gross	(2,008,300)
		Federal	250,000
	Changes proposed by the Governor in the Healthy Michigan Fund for FY 2003-04 are relatively minor. There is a negative adjustment to reflect projected revenue available for FY 2003-04. Furthermore, there are a number of fund source shifts, as the annualization of some FY 2002-03 Executive Order (E.O.) reductions frees up Healthy Michigan Fund dollars for use in other programs, supplanting GF/GP. <b>3.</b>	<b>Family Planning Waiver</b>	Gross	2,250,000
		Federal	2,250,000
		GF/GP	0
	<p>The Governor's budget reflects an assumed increase in funding for Family Planning Services if a waiver is approved by the Federal government. The Family Planning waiver would allow the State to pay for family planning services at an enhanced match rate (90% Federal funds, 10% State funds) for women who are currently not eligible for Medicaid. The Governor proposes to use these funds to implement the "Nurse-Family Partnership Program". The projected increase in Federal funds offsets the cuts that the Family Planning line and the related Pregnancy Prevention line sustained in FY 2001-02 (budgetary savings reductions) and in FY 2002-03 (E.O. 2002-22 and E.O. 2003-3 reductions). The Nurse-Family Partnership Program is currently in place in Berrien County and uses nurses to make home visits to low-income, at-risk, first-time expectant mothers. The goals of this program are to improve pregnancy outcomes, improve child health and development, assist participants in gaining access to health care, and prevent subsequent pregnancies.</p>		
<b>E.</b>	<b>MEDICAID ISSUES</b>		
<b>1.</b>	<b>Medicaid Base, Caseload, and Utilization Adjustments</b>	Gross	398,755,100
		Federal	221,594,400
		Local	2,830,300
		GF/GP	174,330,400
	<p>The Governor's budget includes an increase in funding for the various Medicaid line items (including Children's Special Health Care Services) due to increases in utilization, caseload, and costs. This increase represents about an 8% increase over FY 2002-03 year-to-date appropriations. If the economy sees a significant turnaround during FY 2003-04, these predicted funding needs may recede somewhat.</p>		
<b>2.</b>	<b>Elder Prescription Insurance Coverage (EPIC) Program</b>	Gross	(76,988,200)
		Federal	(68,988,200)
		Private	(8,000,000)
		GF/GP	0
	<p>The EPIC senior pharmaceutical program was funded at the level of \$145,000,000 in FY 2002-03 on the assumption that additional enhanced Federal funding would be made available. That funding was never enacted by Congress. The Governor's FY 2003-04 budget assumes that the EPIC program receives Federal funding from a Pharmacy-Plus waiver that adds real Federal Medicaid dollars to replace the \$115,000,000 in Federal authorization that was removed. This provides a total funding level of \$68 million and could provide coverage for up to 50,000 persons. Furthermore, a technical adjustment removing rebate revenue from the line reduces authorization by \$8,000,000. It appears that there are grounds for the approval of this waiver.</p>

<b>3. Adjustments to MI-CHILD Program Authorization</b>	Gross	(13,067,100)
	Federal	(23,967,100)
	GF/GP	10,900,000
<p>The Federal government requires that states provide a 30% match for children's health coverage expansion programs (such as MI-CHILD). The Governor's budget includes both a technical adjustment to remove Federal revenue that was never earned and an increase in hard GF/GP funding to provide the 30% match required.</p>		
<b>4. Medicaid Special Financing Adjustments</b>	Gross	(218,597,500)
	Federal	(128,027,700)
	Local	(203,312,000)
	Restricted	(16,981,500)
	GF/GP	129,723,700
<p>Over the next four years certain Medicaid special financing mechanisms will be phased out. The GF/GP cost of the change for FY 2003-04 will be \$147 million. The State will obtain savings from a new special financing mechanism involving practitioners at public health care facilities, GF/GP savings of \$14.3 million, and a small increase in school-based health care financing, a \$2.7 million GF/GP offset.</p>		
<b>5. Medicaid Adult Coverage Waiver</b>	Gross	(43,011,700)
	Federal	(27,602,400)
	GF/GP	(15,409,300)
<p>In effect, the Governor proposes the elimination of the existing State Medical Program and State-supported county indigent care programs. Instead, these people would be covered under a limited benefits Medicaid waiver program. It appears that the benefits (limited hospital, ambulatory, and pharmacy services) would be at least as broad as the previous programs. Because this expansion would be done as a waiver to the State Children's Health Insurance Program (S-CHIP), the State's cost will be only about 30% compared with the standard Medicaid State match rate of about 44%. In addition, as many of these recipients were also covered for mental health care with GF/GP dollars, some of these savings be used to give about a 1.6% rate increase to CMHs. Finally, the caretaker relative Medicaid coverage group eliminated during FY 2002-03 would be restored under this waiver. There is a certain amount of risk in this initiative in that its implementation, and therefore, the estimated savings, would require the approval of the Centers for Medicare and Medicaid Services (CMS). This Federal agency could significantly alter the scope of this waiver.</p>

<b>6.</b>	<b>Medicaid Policy Changes and Restructuring</b>		
<b>a.</b>	<b>Long-Term Care</b>	Gross	(45,341,200)
		Federal	(25,341,200)
		GF/GP	(20,000,000)
	The Governor's budget proposes to produce savings in this area by enhancing pre-admission screenings before a person is placed in a nursing home and requiring nursing homes to seek Medicare services for covered benefits whenever possible. Some savings also may be generated through an Estate Recovery program. Until additional details are forthcoming, these saving estimates should be considered to be soft.		
<b>b.</b>	<b>Pharmacy</b>	Gross	(74,359,600)
		Federal	(41,559,600)
		GF/GP	(32,800,000)
	The budget assumes savings on pharmacy costs through the announced inter-state purchasing compact. Additional savings would be generated by more frequent updates of pharmacy product prices and obtaining Federal rebates on prescriptions used by enrollees of the Children's Special Health Care Services program. Some additional savings should be obtained by shifting certain spend-down recipients to the EPIC program. As with the long-term care savings, these estimates should be considered soft until more specifics are received.		
<b>c.</b>	<b>Ambulatory Care Rates</b>	Gross	(9,068,200)
		Federal	(5,068,200)
		GF/GP	(4,000,000)
	Another proposed area of savings is predicated on a modification of the reimbursement methodology for ambulatory care. These savings are based on an expectation that overall payment rates will decline through the application of the latest Medicare data and process to the State's Medicaid data.		
<b>d.</b>	<b>MIChild Coverage</b>	Gross	(7,124,400)
		Federal	(4,924,400)
		GF/GP	(2,200,000)
	The Administration proposes to move from a "State only" program to a "Medicaid only" MIChild program. This is because coverage under the current program is provided through Blue Cross/Blue Shield and its premiums are rising significantly faster than the rates for Medicaid HMO, in which these recipients would instead be placed. This change will most likely require approval from CMS, with all of its inherent risk.

		Federal	(4,057,400)
		GF/GP	(3,202,200)
	The Governor's proposal requires that any child receiving services under this program be financed by either the Medicaid or the MIChild program whenever possible. This does not mean their source of care would change, only its financing.

**2. Medicaid Benefits**

The Governor's proposed budget eliminates the optional Medicaid benefits for podiatry, chiropractic, and dental services, except for emergency dental care, for all adult Medicaid recipients. In addition, it appears that restrictions will be placed on the use of hospital services by adults in Family Independence Program (FIP) related cases. The optional benefits eliminated are not required under Federal law and should produce the estimated GF/GP savings of \$12,000,000. However, hospital services are a mandated coverage and FIP adults are a mandated coverage group. While certain nominal limitations can be placed on mandatory Medicaid services, the estimated GF/GP savings of \$47,900,000 may not pass a "nominal" test by CMS. Thus, actual savings realized may be considerably less.

In the FY 2002-03 budget, \$18,900,000 GF/GP was saved from the hospital program. For FY 2003-04, the Governor's budget proposes taking \$18,900,000 in GF/GP savings from three separate quality assurance assessments: the already existing hospital and nursing home assessments as well as a proposed assessment on pharmacy services.

**A. MICHIGAN STATE HOUSING DEVELOPMENT AUTHORITY**

**1. Payments on Behalf of Tenants**

Currently, the Authority administers two Federal Section 8 Housing Programs. The first, which is still administered but has not funded a new project since the 1980s, provides mortgage subsidies for developers who built or rehabilitated low-income housing units. The second is a rental subsidy program in which a subsidy is made on behalf of tenants directly to landlords. Many of the mortgages in the first program are now being closed out through maturity and accelerated payments due to low interest rates. Without the mandatory rental restrictions, some of these landowners are converting the properties to market rate units. Individuals currently occupying these units, who are unable to afford the market rate prices, are eligible for vouchers under the rental subsidy program. It is this shift in clients from the mortgage program to the rent assistance line that causes the increases in expenditures from this line in the Governor's recommended budget.

**1. AFC, Children's Welfare and Day Care Licensing**

The Governor proposes replacing GF/GP support with Federal Child Care Development Fund (CCDF) block grant funds in this line item. These funds may be used to cover staffing costs related to the regulation of day care facilities. Similar GF/GP reductions to this line were made in Executive Orders issued in FY 2002-03.

**A. PRISON OPERATIONS**

**1. FY 2002-03 New Beds**

Gross	12,040,000
GF/GP	12,040,000

The Governor's budget includes \$9,784,800 for the full-year costs of 1,175 beds funded for a partial year in FY 2002-03 at the Macomb, Saginaw, Jackson Maximum, and Riverside Correctional Facilities. It also includes \$2,255,200 for 271 beds that were opened in FY 2002-03 but never funded. These mainly include beds at the Lakeland, Cotton, Crane, and Egeler Correctional Facilities, but also include 99 beds from 11 other facilities.

**2. Michigan Youth Correctional Facility**

Gross	2,167,100
Federal	1,042,600
GF/GP	1,124,500

The Executive recommendation includes a number of adjustments for the Michigan Youth Correctional Facility (MYCF). First, it includes a \$770,700 increase for a 30-bed expansion that took place in FY 2002-03, but was never funded. Second, the budget recognizes a \$1,396,400 increase in the management contract with Wackenhut Corrections Corporation. Although the MYCF operations have been entirely funded by Federal Violent Offender Incarceration/Truth in Sentencing (VOITIS) until now, these Federal funds will be exhausted during FY 2003-04, and the balance available is not sufficient to fund the entire increase required. Therefore, the budget includes a GF/GP increase of \$1,124,500 to provide the necessary balance of funds.

**3. Other Operational Adjustments**

Gross	(2,130,900)
GF/GP	(2,130,900)

The Governor's budget includes other facility adjustments that total a reduction of \$2,130,900. This includes the elimination of \$1,389,200 for 200 beds that were never added to Camp Lehman due to infrastructure limitations. The budget also adjusts staffing levels for the new units at the Macomb and Saginaw Correctional Facilities for a reduction of \$1,566,900, and reduces the Michigan State Industries (MSI) profit margin on sales to the Department of Corrections (DOC) for savings of \$850,000. The budget includes increases of \$960,500 for facility local utility surcharges and conversion, \$614,700 to restore fire safety officer positions cut in Executive Order 2001-9, and \$100,000 for extradition services costs and volume adjustments.

**B. FIELD OPERATIONS**

**1. Conditional Reintegration Program**

The Governor's budget assumes the implementation of a revised Community Residential Program (or Conditional Reintegration Program, CRP), in which certain nonviolent prisoners would be allowed to live in halfway houses once they were within a required number of months of their earliest release date. The recommendation increases CRP funding by \$6,032,100 by transferring funds from the inmate housing fund, which otherwise would be used to open additional beds. The budget also recognizes \$1,865,100 in CRP program participant fees that would be collected under the program. This will require a statutory change in truth-in-sentencing laws.

Gross	1,865,100
Restricted	1,865,100

**2. Other Adjustments**

The Executive recommendation includes a number of other Field Operations increases totaling \$1,659,000. These include a State restricted fund increase of \$1,412,000 in recognition of increased parole/probation supervision fees for parole/probation enhanced services; \$67,500 for an additional parole board prescreener position; \$149,500 for two parole office rent adjustments; and \$30,000 for Interstate Parole/Probation Compact costs.

Gross	1,659,000
Restricted	1,412,000
GF/GP	247,000

**C. HEALTH CARE**

The Governor recommends an additional \$12,777,500 for increased prisoner health care costs. This includes an \$8,138,400 adjustment to the managed care contract rate as well as an additional \$4,376,800 for increased pharmaceutical costs and volume. The budget also provides \$674,900 for the increased costs of psychotropic drugs associated with prisoner mental health services, which are provided by the Department of Community Health. Finally, the Executive recommends \$187,400 for a new endoscopy unit at the Duane Waters Hospital in Jackson; a \$500,000 reduction of excess funding in the vaccination program; and a \$100,000 reduction for the removal of Bellamy Creek telemedicine funding.

<b>D.</b>	<b>ANNUALIZED SAVINGS FROM EXECUTIVE ORDER 2002-22</b>	Gross	(545,200)
		GF/GP	(545,200)
	The Executive recommendation reallocates the \$12,602,500 reductions made in Executive Order 2002-22 as well as recognizes the annualized savings of certain changes. The annualized savings include \$291,300 from the elimination of a 180-bed increase at Bellamy Creek Correctional Facility; \$170,600 in savings from a .75% reduction in Department of Community Health mental health services; and \$83,300 from a reorganization of academic/vocational principal positions.

	<b>1. County Jail Reimbursement Program (CJRP)</b>	Gross	\$200,000
		Restricted	\$1,000,000
		GF/GP	(800,000)
	The Governor's recommendation includes multiple changes to the CJRP. It both eliminates the remaining GF/GP funding of \$800,000 and increases the State restricted funding by \$1,000,000 to recognize increased collections in court assessments dedicated to the program. It also limits prisoner eligibility such that counties will no longer receive reimbursement for third-time drunk drivers unless they are true prison diversions. Based on reimbursement data, this should save an estimated \$6,951,000, which the Executive recommends be shifted to the re-implementation of the local facility expansion program, which will assist counties with jail renovation and allow the DOC to lease up to 500 county jail beds.		
	<b>2. Academic/Vocational Programs</b>	Gross	(2,567,000)
		GF/GP	(2,567,000)
	The executive budget eliminates academic/vocational programming for maximum security level prisoners, which is more costly than the programming for lower security level prisoners.		
<b>F.</b>	<b>FTE ADJUSTMENTS</b>	FTEs	535.2
	The Governor's budget reduces FTEs by 535.2 in order to reflect early retirement changes.		
<b>I.</b>	<b>FUNDING SHIFTS</b>	Gross	0

Total	\$5,938,800	\$5,852,300

**L. OTHER ISSUES**

**1. Federal Funding**

The Executive budget recognizes the receipt of a \$1,000,000 Federal Going Home Grant to provide programs that encourage the successful community reintegration of offenders. It also recognizes the elimination of Federal substance abuse funding of \$536,200 and Federal Ryan White Grants of \$85,800, both from the Department of Community Health.

Gross	351,000
Federal	351,000
GF/GP	0

**2. Other Adjustments**

The Governor's recommendation includes a number of other increases and reductions that partially offset the increases. The increases include \$28,595,600 to correct the FY 2002-03 retirement rate funding shortfall; \$3,937,900 in additional funding for leap year costs; \$624,700 to restore funds recently cut from the Community Corrections Comprehensive Plans and Services grants; and \$600,000 to correct the funding level for research operations. The reductions include \$10,180,800 in Department-wide support staff reductions; a \$9,468,400 reduction in new employee school training; \$5,224,700 in additional savings from the early retirement program; \$1,575,969 in reduced information technology spending; and a \$121,000 reduction to eliminate excess funding for random employee drug tests. The budget also eliminates the dental lab operations line item and transfers it to the MSI program, and so eliminates the related interdepartmental transfer of \$102,300.

GF/GP	2,595,200

An increase of over 33% is proposed for the State School Breakfast Program, funded entirely with GF/GP dollars. This program reimburses school districts for breakfasts served to children eligible for free or reduced-price lunch. Increasing program costs and numbers of breakfasts served are driving the need for additional funding.

**1. Elimination of Federal Grants No Longer Funded**

Several grants are no longer funded at the Federal level, and therefore the Governor's proposed budget eliminates the appropriations for them. These grants include Class Size Reduction, Eisenhower Mathematics and Science, Goals 2000, and Technology Literacy Challenge Grant. In addition, funding for Urgent School Renovation is reduced due to the fact that the grant is no longer available, but the Department has unspent funds remaining, which will be allocated in FY 2003-04. Administrative funding for these grants also is eliminated.

**2. Elimination of Motorcycle and Off-Road Vehicle Safety Programs**

The Executive recommendation includes the elimination of two programs funded with restricted revenues, the Motorcycle Safety Education Program (\$1,539,200) and the Off-Road Vehicle Safety Training Program (\$412,100). Fees that are currently earmarked to support these programs (from license applications) will be reduced for the consumer correspondingly.

**3. Reduced GF/GP Funding for Administration**

Excluding funding for the three FTEs eliminated (item below), the Department of Education's State administrative funding is reduced by \$818,000 GF/GP (\$804,900 Gross) in the Governor's recommendation.

**4. Education Commission of the States Membership**

The Governor recommends the elimination of dues for the State's membership in the national organization Education Commission of the States, a reduction of \$99,300.

**5. Elimination of State Tenure Commission Per Diems**

The Governor proposes to eliminate the \$50 per meeting day reimbursement to State Tenure Commission members, for a total reduction of \$11,100.

**C. PROGRAM TRANSFERS**

In the Governor's budget, Information Technology support personnel for the Center for Educational Performance and Information (CEPI) are transferred out of the Department of Education and into the Department of Management and Budget, which currently oversees the programmatic aspects of CEPI.

**A. SCRAP TIRE GRANTS**

Scrap tire grants assist property owners with the proper removal of scrap tires that have been accumulated or abandoned. A portion of the grant funding also is used for suppression of scrap tire fires, as needed. The fee for disposal of scrap tires was increased from 50 cents per tire to \$1.50 per tire in Public Act 497 of 2002. As a result, additional revenue is available in the Scrap Tire Regulatory Fund to support these grants. With this increase, the Governor's budget appropriates a total of \$3,500,000 for scrap tire grants.

**D. SECURITY OF PUBLIC WATER**

The State has received a two-year Federal grant of \$835,600 for increased security activities at public water facilities. This funding is related to Federal Homeland Security initiatives. The grant will be used in communities with populations less than 100,000 for the training of facility staff in security procedures and the revision and development of emergency response plans. Larger communities are expected to receive funding directly from the Federal government. The balance of the grant will be appropriated in FY 2004-05.

<b>E. SUPERFUND GRANT</b>	Gross Federal GF/GP	(3,000,000) (3,000,000) 0
The Federal government makes funding available for capital improvements at Super Fund cleanup sites and the State is responsible for ongoing maintenance at these sites. The Governor's recommended budget reduces the appropriation of Federal funding for Super Fund projects to reflect actual expenditures as capital improvements are completed at many of the sites.		
<b>F. GREAT LAKES SHORELAND PROGRAM</b>	Gross Restricted GF/GP	5,000 225,000 (220,000)
The Governor's recommendation reflects increased revenue from fees related to aquatic nuisance species. These fees were increased in Public Act 41 of 1999. An additional \$225,000 in fee revenue is expected and the budget uses this revenue to offset a reduction of \$100,000 in General Fund support for the Great Lakes Shoreland program. The proposed budget reduces General Fund support by another \$120,000 by applying restricted fund expenditures as the State match to certain Federal funds.		
<b>G. LEAKING UNDERGROUND STORAGE TANK ADJUSTMENT</b>	Gross Restricted GF/GP	(850,000) (850,000) 0

<b>H. FLEET SAVINGS</b>	Gross Restricted GF/GP	(25,600) (25,600) 0
As part of the FY 2002-03 General Fund budget reductions included in Executive Order 2003-3, the leases on a number of State vehicles were discontinued. The Governor's proposal reflects savings in restricted funds from this action.		
<b>I. EARLY RETIREMENT SAVINGS</b>	Gross Restricted GF/GP	(733,500) (733,500) 0
The recommended budget includes adjustments to the Department's base funding for the April 2002 early retirement option. The reductions occur in various programs across the Department.		
<b>J. INFORMATION TECHNOLOGY REDUCTION</b>	Gross GF/GP	(254,561) (254,561)

Located within the Environmental Health unit of the Department, this program certifies water and sewer systems in manufactured housing communities. The program is eliminated in the Governor's recommended budget. Other areas of the Department will continue to perform minimal reviews of the facilities since certification is required for the Department of Consumer and Industry Services to license manufactured housing communities.

**3. Septage Program and Grants**

This program inspects septage waste facilities. It has not been implemented statewide and the General Fund is supplementing the program since fee collections are not sufficient to cover costs. The Governor's recommendation eliminates this program. Under the proposal, some inspection responsibilities will shift to local health departments and there will be lower enforcement of regulations. In addition, an appropriation of \$1,525,000 for septage waste compliance grants to local jurisdictions is eliminated since fee collection will end.

This program is not eliminated, but General Fund support is removed in the Governor's recommended budget. The permit fee for removal of submerged logs is scheduled to sunset in 2005. After three years of operation, demand for this program is low and the Department has determined that submerged logs are not a viable resource for alternative uses. An appropriation of \$101,600 from the Submerged Log Recovery Fund remains in the budget.

1.	<b>National Pollution Discharge Elimination System (NPDES) Permit Fee</b>	FTE	15.0
	Currently, the Department issues NPDES (point source pollution) permits, but does not collect a fee for them. The Governor proposes to establish a new permit fee for this program and estimates revenue collection of \$7,220,900. The fee will be set to cover only the program costs. The proposal also adds 15.0 FTEs for administration of NPDES permitting. The Governor's recommended budget uses the anticipated fee revenue to offset the reduction of General Fund support for the current permitting program. The balance of \$321,000 is appropriated in the laboratory services function (item M. 3, below). Legislation will be required to establish the program and set the fees.	Gross	2,200,000

**4. Storm Water Permit Fees**

The Storm Water program regulates the discharge of storm water from large municipal areas, selected industrial sites, and large construction sites. The Governor proposes a revised storm water permit fee structure that expands the regulatory activities to smaller discharge sites. The recommended budget appropriates an additional \$1,162,500 in anticipated fee revenue from expansion of the program and adds 5.0 FTEs for administration of storm water discharge permitting. Legislation is required to implement the changes to the program. Total recommended appropriations from storm water permit fees are \$2,526,500, an increase from the FY 2002-03 appropriation of \$1,364,000.

This fee is expected to end in FY 2002-03 when sufficient funds become available to fully pay off outstanding revenue bonds. A portion of the administrative costs of the Department's underground storage tank program is supported by \$4,420,000 of this fee revenue. The Governor's budget replaces this fee revenue with funding from the Environmental Response Fund and eliminates the appropriation of \$62,455,700 for MUSTFA.

Laboratory testing for Clean Michigan Initiative response activities is charged to Clean Michigan Initiative revenues for \$1,284,400. Also, the elimination of exemptions and free retesting is expected to result in an additional \$100,000 in an interdepartmental grant from the Department of Agriculture and \$150,000 from other State departments, local health departments, and private entities. **A. TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (TANF)**

The Federal welfare reform block grant, created by the Personal Responsibility and Work Opportunity Act of 1996, that the State receives and the reduction in welfare caseloads allow for a cost shift from General Fund spending to block grant fund support. The block grant authorization expired September 30, 2002, and funding for the State is extended for FY 2002-03 by two Congressional resolutions. A Congressional five-year Reauthorization was passed by the U.S. House of Representatives and is being considered by the U.S. Senate. The Governor's recommendation assumes program reductions, cuts in administrative expenditures, and fund source shifts in order to adjust TANF spending.

**1. Family Independence Program (FIP)**

The proposal for the FIP is based on a projected caseload decrease of 10,200 cases to an average of 69,500 cases. A transfer of \$3,000,000 for Kinship Care Pilot programs from the FIP line to a new line, Enhanced Child Care Fund Reimbursement for Community Programs, is proposed in order to make TANF funds available to more counties across the State.

**2. Day Care**

The Governor's recommendation includes an increase of 2,500 cases at the FY 2002-03 average cost of \$573 per case. The Executive further proposes a \$16 increase to \$589 per case. A policy change that decreases the maximum number of day care hours from 140 to 100 hours for persons with a full-time work status reduces the number of reimbursable hours, for savings of \$4,400,000 Gross, \$1,500,000 GF. An additional 700 cases result in a total of 66,300 cases in the proposal. The proposal includes a funds source shift of Child Care and Development Fund and General Fund to TANF in the program. The elimination of School Aid-related programs results in a decline in TANF maintenance of effort (MOE) claims. State GF/GP funding is added to replace this shortage in MOE countable expenditures. The Before- and After-School Pilot Program TANF funds are redirected to the newly created Enhanced Child Care Fund Reimbursement for Community Programs for use Statewide.

<b>a.</b>	<b>The Homestead Property Tax Credit for Low Income Families</b>	Gross Federal GF/GP	(50,000,000) (50,000,000) 0
		The proposal includes the elimination of the TANF funds used to finance the portion of the reimbursement for low-income families. The U.S. Department of Health and Human Services indicated in a letter to the State that this use was no longer allowed under the welfare reform act. The funds for the credit from other revenue sources are appropriated in the Department of Treasury bill.	
		<b>b.</b>	<b>Project Zero</b>
		FTE Gross Federal GF/GP	(46.2) (3,147,500) (3,147,500) 0

The proposal combines the programs to simplify the services payment process and eliminates the excess administrative funds and staff positions.	
<b>c.</b>	<b>Child Care Fund</b>	Gross Federal GF/GP	53,700,000 35,395,600 18,304,400
		The Executive proposes a redirection of \$50,000,000 in TANF-funded pilot programs Before- and After-School, Fatherhood Initiative, Kinship Care, Marriage Initiative, Teenage Parent Counseling, and various programs from Family Preservation and Prevention Services to a new line item related to Child Care Fund reimbursable activity, with a net reduction of \$12,874,600 Gross, \$0 GF. The anticipated impact is that TANF funds will be available to more counties across the State and encourage counties' use of TANF funds for eligible programs and services. Additional funds are proposed for emergency out-of-home and the State and local share of in-home TANF reimbursable services claims. The proposal includes General Fund dollars for an increase in county Child Care Fund in-home services at a reimbursement rate of 75%, an increase from 50%.

**E. MICHIGAN MERIT AWARD PROGRAM**

The Governor's recommendation reduces the \$2,500 Merit Award grants to \$500, beginning with the graduating class of 2004. The Governor also recommends eliminating the middle school awards that otherwise will be awarded to graduating seniors beginning with the class of 2005. The annual appropriation for the Merit Awards includes payments for seniors qualifying for a scholarship in that year and for anyone from a previous graduating class who has not used his or her scholarship and may request it. The FY 2003-04 funding recommendation of \$65,100,000 is based on estimated payments of \$1,212,500 for the class of 2000; \$1,940,000 for the class of 2001; \$3,637,500 for the class of 2002; and \$58,310,605 for the class of 2003. There are no dollars included for the 2004 graduating class because the Governor recommends that those funds (estimated to be about \$22,750,000 due to the reduction in the award amount) be paid out of the FY 2004-05 appropriation, which will coincide with the 2004-05 academic year.

**F. TUITION INCENTIVE PROGRAM**

The Governor increases funding for the Tuition Incentive Program (TIP), which is financed from the Michigan Merit Award Trust Fund, by \$4,000,000 to reflect current caseload projections. The proposed FY 2003-04 TIP appropriation is \$9,250,000 but the Governor recommends that no new enrollments be accepted due to a proposed transition of future students into a new Great Lakes, Great Hopes Scholarship Fund to be created by the Governor.

**G. MICHIGAN OPPORTUNITY SCHOLARSHIPS**

The Governor recommends the elimination of seven financial aid programs (item J.4, below) with the transfer of funds from these programs to one new needs-based Michigan Opportunity Scholarships Program (MOSP). As proposed, the MOSP will begin with the graduating class of 2003, and all Michigan high school graduates attending a Michigan public or independent college or university will be eligible to receive a needs-based scholarship. Students currently enrolled and receiving State Competitive Scholarships or Tuition Grants will continue to receive their grants until they graduate, or are otherwise not eligible. Under current financial aid law, Tuition Grants are awarded only to students who attend independent degree-granting colleges and universities. The Governor's proposal does not earmark any financial aid dollars for students attending independent institutions but instead recommends that all State financial aid funds be consolidated into one program for which all needy students are eligible. The Governor recommends total funding for the transitional program and the new MOSP of \$112,444,900.

**H. FEDERAL FUNDING REDUCTIONS**

The Governor's budget reduces Federal funds for State Competitive Scholarships by \$700,000 and for Robert Byrd Honors Scholarships by \$400,000. The Governor recommends that the \$2,900,000 in Federal funds remaining for State Competitive Scholarships be transferred to the new Michigan Opportunity Scholarship Program; and that the Robert Byrd Honors Scholarships be funded at an FY 2003-04 level of \$1,500,000.

**I. MICHIGAN PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (MPSERS)**

The Governor's budget proposes to freeze the FY 2003-04 contribution rate for the seven universities that participate. The proposed savings are approximately \$2,600,000 but will not be reflected in the appropriation bill. The amount saved by each university is estimated to be as follows:

Central .....	\$527,891
Eastern .....	\$399,146

**J. PROGRAM ELIMINATIONS**

The Governor's budget eliminates State funding for the following programs:

1. One-time funding of \$1,900,000 from the Tobacco Settlement Trust Fund for the Rare Isotope Accelerator project at Michigan State University;
2. Japan Center funding of \$294,594 that defrays administrative costs for the Center in the Shiga Prefecture;
3. Midwest Higher Education Compact dues of \$82,500; and
4. Seven financial aid programs that are recommended to be repealed, including State Competitive Scholarships, Tuition Grants, Work Study, Part-time Independent Student Grants, Michigan Education Opportunity Grants, General Degree Reimbursements, and Allied Health Degree Reimbursements. (The lower half of column 5 on Table 1 lists the amounts reduced from each program.) These seven programs are first reduced by 6.74%, and the remaining \$112,400,000 is transferred to the new Michigan Opportunity Scholarship Program (item G, above).

**K. TOBACCO SETTLEMENT**

As noted in items E, F, G, and J above, the Governor's budget adjusts Tobacco Settlement funding, and the net impact is the elimination of all Tobacco Settlement Trust Fund dollars (\$1,900,000) and a reduction of \$4,284,802 in Merit Award Trust Fund dollars. The table below displays the Governor's recommended appropriation changes.

**A. LIBRARY SERVICES AND TECHNOLOGY ACT FUND**

Gross	1,000,000
Federal	1,000,000
GF/GP	0

This Federal Act includes a \$4.6,000,000 grant program administered by the Library of Michigan. The grants are distributed to local, academic, and school libraries to assist with the cost of improving the technology services that are available to patrons. The funds are provided as seed money for initial capital expenses, with the responsibility for operational funding falling to the recipient organization. The grants are awarded each fiscal year but are available for expenditure for 24 months. This increase in Federal spending authority will allow consecutive fiscal year awards to be accrued at the same time, which require the spending authority in the line to exceed the annual Federal award, as reflected in the Governor's budget recommendation.

**B. MACKINAC ISLAND STATE PARK COMMISSION**

**1. Mackinac Island State Park Operation**

Gross	30,000
Restricted	30,000
GF/GP	0

The Governor proposes increasing this restricted fund authorization for the Airport and Park Operations Fees to help offset the GF/GP reductions in the Mackinac Island State Park Operations line item.

**2. Historical Facilities Systems**

Gross	235,000
Federal	235,000
GF/GP	0

A similar proposal is recommended to increase the restricted revenue authorization from the Mackinac Island State Park Fund to offset the GF/GP reductions in this line item. A reduction in other expenditures from this line allows for additional revenue to be made available to cover the costs of operating the historical facilities on the island.

**C. RENAISSANCE ZONE REIMBURSEMENT**

Gross	644,400
GF/GP	644,400

The Governor proposes increasing this line to account for increased adjustments to the estimated payouts for this line. The proposal increases this appropriation from \$995,600 to \$1,640,000.

GF/GP (10,629,200)

The Governor proposes a 50% GF/GP reduction in this grant program. The total recommended appropriation for FY 2003-04 is \$11,771,300.

**2. Grants to Libraries**

Gross (1,038,700)  
GF/GP (1,038,700)

The Governor proposes a 7% reduction to the library grant lines including State Aid, Subregional State Aid, Book Distribution Centers, and the Detroit and Grand Rapids libraries. No reductions are recommended for the Wayne County Library for the Blind and Physically Handicapped.

**3. Department Administration and Information Technology**

Gross (389,300)  
GF/GP (389,300)

The Governor proposes reductions of 12% to administration lines and 13.5% to the Information Technology unit, which is the payment to the Department of Information Technology.

**4. Program Administration**

Gross (1,791,300)  
GF/GP (1,791,300)

The Governor proposes between 9% and 12% reductions to all program administration lines to total 15% reductions after Executive Order 2002-22.

**5. Lighthouse Grants**

Gross (152,700)  
GF/GP (152,700)

The Governor proposes pausing these grants for FY 2003-04. The Legislature established the grants in 1999 in an effort to provide assistance to groups involved in preserving these structures. Nonprofit organizations and State or local governments that own, are acquiring, or have a long-term lease on a lighthouse are eligible to apply. No funding is available for private individuals.

**F. ECONOMIC ADJUSTMENTS**

Gross 177,800  
GF/GP 177,800

The proposed budget applies standard economic adjustments for workers' compensation and building occupancy charges consistent with factors applied to all budgets. These adjustments include:

Item	Gross	GF/GP
Building Occupancy Charges	\$172,600	\$172,600
Workers' Compensation	5,200	5,200
Total	\$177,800	\$177,800

**G. OTHER ISSUES**

Gross 72,700  
Federal 26,900  
Restricted 40,000  
GF/GP 5,800

The Governor's budget recommendation makes various other adjustments, including adjustments for November early retirement payouts, adjustments in funding for Information Technology services and for programs previously administered by the Department of Natural Resources, the Department of State, and the Department of Treasury. The Governor's recommendation also includes \$26,900 in Federal Reed Act funding for the Detroit Public Library. This adjustment is made as part of the transfer package to implement Executive Order 2003-3, but the transfer package has not been passed by the Legislature to date.

**2. Information Technology Reduction**

The Governor's budget reduces the appropriation for the Department of Information Technology based on savings that will be achieved through renegotiation of vendor contracts to reduce rates paid to vendors, telecommunication rate reductions related to data circuits, consolidation efficiencies, and equipment savings. Savings are reflected in departmental information technology appropriation units.

**3. FY 2002-03 Base Adjustments**

Several adjustments to the FY 2002-03 budget were not reflected in the appropriation for the Department of Information Technology in that fiscal year. They included budgetary savings reductions included in the enacted budgets of State departments and agencies, Executive Order 2002-22, and Executive Order 2003-03. The Governor's recommendation includes adjustments to accurately reflect the current services year-to-date budget for the Department of Information Technology.

**A. PAYMENTS IN LIEU OF TAXES**

The Department of Natural Resources is required to make payments in lieu of taxes on certain State-purchased lands. In general, these payments are made from the same source of financing as that used to purchase the land. The Governor proposes a new formula for calculating the property tax payments and the fund source used to make the payments. Under the Governor's proposal, the State will pay a flat rate of \$2 per acre in place of the local property tax rate and all payments will be made from the General Fund. These are the same rate and fund source applied to State swamp land and tax reverted lands. The Governor's proposal also applies this funding formula to the remainder of FY 2002-03. A statutory change is necessary to enact this proposal.

Marine Safety grants are paid to county sheriffs for watercraft law enforcement and safety education programs. A local match of 25% is required. Due to a realignment of the grant payments in FY 2002-03 and multiple years of appropriations greater than revenues, a lower level of grant funding is available in FY 2003-04. The Governor's recommendation reflects the Department's estimate of revenue available. An appropriation of \$2,805,000 remains in the line.

A two-year grant from the Great Lakes Fisheries Commission is available for Geographic Information System and database projects related to the Great Lakes. The Governor's budget adjusts the appropriation to reflect available funding. A total of \$100,000 is available in FY 2003-04, the second year of the grant.		
<b>H. STATE PARKS IMPROVEMENT BOND</b>	Gross	(133,100)

A revenue bond was issued in FY 2001-02 for \$15,500,000 for improvements at Sterling State Park in Monroe. Payments for debt service on the bond began in FY 2002-03; however, the actual payment schedule was not available at that time and an estimate was used for appropriation purposes. The Governor's recommended budget adjusts the appropriation for payment of the debt service to match the repayment schedule. An appropriation of \$1,066,900 from the Park Improvement Fund remains for debt service.

A General Fund reduction of \$1,095,600 included in the FY 2002-03 budget reductions of Executive Order 2002-22 was postponed due to available Recreation Bond proceeds used to offset General Fund expenses. The Governor's recommended budget implements this reduction in FY 2003-04. The reduction is applied to various programs across the Department. Restricted funds available in the area of Mineral Management offset a portion of the General Fund reduction.

**Reservation and Retail Sales Systems**

The Governor's recommended budget transfers the campground reservation system and administration of the retail sales system for hunting and fishing licenses from the Department of Information Technology to the Department of Natural Resources. The transfer includes 7.0 FTEs and \$3,883,700 of restricted funds. Since the funding was previously appropriated in the Information Technology unit of the Department, this transfer does not result in a change of funding for the Department.

**State Parks Motor Vehicle Entrance Fees**

The Governor proposes an increase to the motor vehicle entrance fee to State Parks. The fee is currently set in statute at \$20 for an annual permit and \$4 for a daily permit. The revenue is deposited into the Park Improvement Fund. The Governor's recommended budget reflects \$2,396,900 in increased revenue from raising the fee to \$24 for an annual permit and \$6 for a daily permit and an additional appropriation of \$150,000 from the balance of the Park Improvement Fund. This funding offsets a General Fund reduction. In addition, statutory changes are recommended to transfer authority for setting the park entrance fees to the Natural Resources Commission.

**P. FUNDING SHIFTS**

**1. State Parks Operations**

The Governor's recommended budget offsets a reduction in General Fund support for State Parks with \$6,000,000 in appropriations from the State Park Endowment Fund. This funding is anticipated as a result of the investment of the Endowment Fund pursuant to amendments to the Michigan Constitution adopted on the August 2002 ballot. This funding shift and the fee increase for motor vehicle entrance permits results in the elimination of General Fund support for State Parks.

GF/GP	(31,400,000)

The Governor recommends the holding of a new recruit school for Michigan State troopers. The proposed school will begin April 24, 2004, and produce 100 new troopers, which will contribute to an estimated Statewide trooper strength number of 1,100 at that time.

The Governor recommends an alternative fund source, a new Traffic Enforcement and Safety Fund, to offset \$36,400,000 in reduced GF/GP funding for FY 2003-04. The Governor recommends that \$23,700,000 of these funds come from an increase in vehicle operators licenses as shown below:

	<u>Current Fee</u>	<u>Governor's Proposed Fee</u>
Operator - Original	\$13.00	\$25.00
Operator - Renewal	\$13.00	\$25.00

In addition, the Governor proposes that \$12,700,000 in existing license fee revenue currently earmarked for the Transportation Economic Development Fund also be used to support trooper salaries. In all, \$31,400,000 supplants existing GF/GP support and \$5,000,000 funds the proposed trooper school.

The Governor recommends two major funding shifts for FY 2003-04. The first shifts GF/GP expenditures of \$31,400,000 within the at-post trooper appropriation to a new fund source, the Traffic Enforcement and Safety Fund ( item A.above). The other shifts \$6,284,700 in GF/GP funds for the Fire Marshal Division and other lines, to a new fund source called Fire Safety Fees (item B above).

**A. DIESEL FUEL / LIQUIFIED PETROLEUM GAS TAX INCREASE**

Gross	38,940,000
Restricted	38,940,000
GF/GP	0

The Governor's budget proposal includes revenue from an anticipated 4-cent per gallon increase in the diesel fuel tax and the liquified petroleum gas (LPG) tax. Currently, the excise tax on these fuels is 15-cents per gallon, while the excise tax on gasoline is 19-cents per gallon. The proposed increases would equalize the State taxation on all of these fuel types. The estimated revenue from the increase of these taxes is \$38,940,000. The Governor proposes to distribute this revenue through the standard Public Act 51 of 1951 formula in the following amounts: \$3,894,000 to the Comprehensive Transportation Fund, \$13,703,000 to the State Trunkline Fund, \$13,703,000 to county road commissions, and \$7,640,000 to incorporated cities and villages.

**B. TRANSPORTATION GRANTS TO OTHER DEPARTMENTS**

Gross	(2,339,500)

GF/GP	0

The Governor's FY 2003-04 budget proposal continues interdepartmental grants (IDGs) to other State departments/agencies for transportation-related services provided to the Michigan Department of Transportation (MDOT). The total level of these grants is reduced by \$2,339,500 from the FY 2002-03 year-to-date level of \$120,743,900. The Michigan Transportation Fund (MTF) IDG to the Department of State is increased \$252,300 to a total of \$94,752,300, while the MTF grant to the Department of Treasury is reduced by \$1,664,000 to \$8,561,000. The State Trunkline Fund IDG to the Department of State Police is reduced by \$1,400,000 to \$6,853,300 to reflect the appropriate service level provided by State Police, Motor Carrier Division.

Included in the FY 2003-04 budget proposal are transportation IDGs to the newly created Department of History, Arts, and Libraries (HAL). These grants represent record-keeping services previously provided by the Department of Management and Budget to MDOT and that were transferred to HAL under Executive Order 2002-17.

**C. MTF REVENUE DISTRIBUTION TO ROAD AGENCIES**

State transportation revenues credited to the MTF are expected to increase by 4.9% over FY 2002-03 estimates to over \$2.1 billion in FY 2003-04, including the new revenue from the proposed diesel/LPG tax increase. As a result of the natural growth in the MTF, the net MTF formula distribution to State and local road agencies will increase in the following amounts, excluding revenue from the proposed diesel/LPG tax (Item B, above):

State Trunkline Fund . . . . .	\$25,848,700
County Road Commissions . . . . .	25,848,700
Cities and Villages . . . . .	<u>14,411,700</u>

**D. DEBT SERVICE**

The Governor's budget proposal reflects both new and existing debt service costs associated with transportation-related borrowing. State Trunkline Fund debt service will decrease by \$15,656,400 as a result of refinancing; this revenue is redirected to the State road and bridge programs. Debt service paid from the Transportation Economic Development Fund will increase by \$2,875,900, resulting from new Build Michigan III bonding proposed for FY 2003-04. This increase will reduce the allocations to target industries by \$1,437,900; \$719,000 to urban counties, and \$719,000 to rural counties.

Debt service for Comprehensive Transportation Fund (CTF) projects will increase by \$6,178,600 to cover \$82,300,000 in bonds issued in 2002 for various CTF projects. The Governor's budget also recognizes \$1,050,000 in CTF debt service payments associated with anticipated borrowing to satisfy the final payment to Northwest Airlines for the midfield terminal expansion project at the Detroit/Wayne County Metropolitan Airport. The financing for the final payment to Northwest Airlines was changed from GF/GP support to CTF bond proceeds as part of Executive Order 2003-3 to assist in balancing the General Fund budget.

<p>Total Federal road and bridge funding is estimated at \$909,555,100 in FY 2003-04, a continuation of FY 2002-03 estimates. However, the current-year budget includes appropriation authorizations to State and local road agencies above the actual amounts allocated by Congress under the most recent Federal budget bill. Therefore, a net reduction of \$2,931,000 from the current-year level of \$912,486,100 is included. The Governor's recommendation reduces appropriations of Federal funds to State and local road agencies to reflect the currently anticipated amounts. Federal bridge funds are appropriated using the historical allocation schedule, 85% to MDOT and 15% to local road agencies.</p> <p>The Governor's budget includes additional Federal funding of \$3,000,000 to cover debt service on existing Federal grant anticipation notes issued in 2002, the proceeds of which were used to accelerate the Build Michigan program.</p>

Through changes to the General Sales Tax Act, the Governor plans to reduce the amount of the transfer by a total of \$10,600,000 in FY 2002-03 and FY 2003-04, combined, and redirect this revenue to the FY 2003-04 General Fund. This change would not affect the appropriation levels, but instead would affect the revenue of the CTF, and therefore is not reflected here as a change from year-to-date.</p>

Currently, an estimated \$13,000,000 in operators and chauffeurs license fee revenue is deposited annually in the Transportation Economic Development Fund (TEDF). The Governor's budget recommendation includes proposed legislation that would redirect this revenue from the TEDF to the Traffic Enforcement and Safety Fund to be used by the Department of State Police. The reduction of \$13,000,000 will be distributed according to the TEDF formula, in the following manner: \$6,500,000 to the target industries allocation, \$3,250,000 to the urban county allocation, and \$3,250,000 to the rural county allocation.

**A. COMMERCIAL MOBILE RADIO SERVICE PAYMENTS**

The revenue supporting this appropriation is generated by a 55-cent fee included on all cellular phone bills. The revenue is used to establish and maintain 911 emergency response capabilities of locating a cellular phone call. Proceeds from the fee are distributed to counties for conversions of hardware and software, to the State Police for enhancement of radio tower capabilities, and for the training of personnel. Counties receive a flat allotment of \$33,615 plus 45 cents per capita. The project was begun in FY 2000-01. A five-year completion time line makes FY 2004-05 the last year of funding. Public Acts 78 and 79 of 1999 established the program through amendments to the Emergency Telephone Service Enabling Act (MCL 484.1101 to 484.1717). This Act sunsets on December 31, 2006. Other proposed changes include eliminating 4.0 FTEs/\$224,400 related to the sunset of the statutory fee for the Michigan Underground Storage Tank Financial Assurance Fund; eliminating the Children's Trust Fund deduct of \$6,500; funding source adjustments based on actual charges; reflecting the previous transfer of certain warrant processing costs to the Department of Management and Budget; and a \$3 adjustment related to a rounding adjustment from Executive Order 2003-3.

The Governor recommends that restricted State revenue sharing payments in FY 2003-04 total \$1,412,100,000, an estimated decrease of \$43,618,000 (3.0%) from the current estimated payments for FY 2002-03. In this proposal, the recommended amount is a limit on total revenue sharing distributions; if actual sales tax revenue exceeds the consensus estimate and produces a higher revenue sharing total than the appropriated amount, the excess revenue will not be distributed. If revenues are not as high as forecasted, the recommendation ensures any additional reduction will be distributed evenly across all units, excluding the City of Detroit.

The Governor also proposes that the 3.0% reduction be distributed evenly across all local units, including the City of Detroit. This proposal effectively suspends the revenue sharing formulas included in statute, including the phase-in of the new distribution created by the formula changes adopted in Public Act 532 of 1998.

The Governor recommends that revenues traditionally set aside at the end of each fiscal year to fund constitutional revenue sharing payments in October of the next fiscal year be transferred to the School Aid Fund. The amount of the transfer is estimated to total \$198,000,000 and will not directly affect revenue sharing payments to any local unit. Under changes implemented in Public Act 679 of 2002, beginning in FY 2003-04, funds used to pay constitutionally required revenue sharing payments must come from the fiscal year in which the payment is made. As a result, the year-end reservation of July through September revenues to fund the October constitutional payment and a portion of the December payment will no longer be necessary. However, constitutional and accounting considerations may keep the funds from being used for any purpose other than constitutional revenue sharing, in which case the transfer will not take place.

The estimated and proposed revenue sharing payments, by distribution type, are summarized in Table 1. Figures in the table are based on the January 2003 consensus estimates of State revenues and the Governor's FY 2003-04 budget recommendation.

1) The revenue sharing appropriations are based on consensus sales tax estimates adopted at the January 2003 Consensus Revenue Estimating Conference. The appropriated levels represent the maximum amount that will be distributed for restricted revenue sharing. If actual sales tax collections are lower, then the revenue sharing distributions will be reduced. If actual sales tax collections are higher than estimated, then constitutional payments will be increased and statutory payments will be reduced.

2) General Fund/General Purpose amounts are special census payments.

# **ECONOMIC AND REVENUE FORECAST**

---

## ***ECONOMIC AND REVENUE FORECAST***

### **Economic Forecast**

The Governor's proposed budget for FY 2003-04 is based on an economic forecast that assumes the U.S. and Michigan economies begin to pull out of the current pause in economic growth during the spring of 2003 and then, in the summer of 2003, experience more robust growth which then carries over through 2004. This economic forecast is summarized in [Table 1](#) and is the consensus forecast adopted by the Treasury Department, Senate Fiscal Agency, and House Fiscal Agency at the January 14, 2003, Consensus Revenue Estimating Conference.

**U.S. Economy.** The current lackluster performance of the U.S. economy can be attributed to a large extent to the uncertainty being generated by the Iraqi conflict. Consumers and businesses have a tendency to be very cautious about making financial commitments when economic times are uncertain, and that is currently the case. The forecast of the U.S. economy is predicated on resolution of the Iraqi situation through either war or diplomatic means in the short term. While the Iraqi situation is currently hurting economic growth, Federal monetary and fiscal policy is working to help bolster the economy. The Federal Reserve has lowered short-term interest rates to their lowest levels since the early 1960s and Federal fiscal policy is reducing taxes and increasing spending. Therefore, once the Iraqi situation is resolved, consumer and business confidence is expected to be restored and this will generate renewed economic growth. For the U.S. economy, real Gross Domestic Product (GDP) is forecast to increase 2.4% in 2003 and then improve to a growth rate of 3.7% in 2004. Light motor vehicle sales are expected to fall slightly from the historically high levels of 17.0 million units in 2001 and 16.5 million units in 2002 to a total of 16.3 million units in 2003 and 16.4 million units in 2004. Even as economic growth begins to improve in 2003, the improvement in the labor market will not occur until later in the year, as is typical during the initial stages of renewed economic growth. As a result, the unemployment rate is expected to rise to 6.1% in 2003, from 5.8% in 2002, and then fall to 5.6% in 2004. As the level of economic activity picks up, inflationary pressures also will have a tendency to increase. To help head off these inflationary pressures, the Federal Reserve is expected to increase short-term interest rates, which will push up the 3-month Treasury Bill rate to an estimated 3.2% in 2004 from 1.6% in 2002 and 2003. As a result, it is estimated that inflation will remain under control through the forecast horizon despite the temporary run up in oil prices during the Iraqi conflict.

**Michigan Economy.** The number of workers receiving wages and salaries in Michigan fell by 41,000 people, or 0.9%, in 2002. In 2003, the level of wage and salary employment is expected to fall another 14,000 jobs, or 0.3%. The turnaround of the national economy in 2004 will help increase employment in Michigan by 77,000 jobs, or 1.7%. As a result, Michigan's unemployment rate will rise to 6.2% in 2003, from 6.1% in 2002, and then fall to 5.7% in 2004. The decline in the number of people employed in 2003, will be offset by increases in the average work week and average weekly earnings in many sectors of the economy during the last part of 2003, which will help generate a 3.6% increase in Michigan personal income in 2003, compared with the 2.0% increase experienced in 2002. In 2004, personal income growth is expected to rebound further to a rate of 5.2%. Inflation, as measured by the Detroit Consumer Price Index, is expected to remain steady at 2.7% in both 2003 and 2004.

### **Proposed Revenue Changes**

The Governor's budget includes several tax policy changes, revenue shifts, new lottery games, and an increase in the diesel fuel tax as ways to generate additional revenue. These proposed changes are summarized below.

**Tax Policy Changes.** The Governor is proposing 15 tax policy changes that are being characterized as closing tax loopholes. These changes are summarized, along with the estimated gain in revenue they would generate, in [Table 2](#). It is estimated that in FY 2003-04 these tax policy changes would generate \$128.9 million in new revenue, of which \$108.7 million would go to the General Fund/General Purpose (GF/GP) budget and \$20.3 million would go to the School Aid Fund (SAF) budget. These proposed tax changes would have an impact primarily on nonresidents who earn business income or have casino winnings in Michigan (income tax), limited liability companies and other “flow-through” structured businesses (single business tax), oil and gas well owners (income and single business taxes), insurance companies (use tax), people purchasing land that includes an agreement to build on that land (transfer tax), and people and businesses who are delinquent in paying their taxes (tax penalties). Legislation will be needed to enact these proposed tax changes.

**Auto-Related Sales Tax Collections.** Under current law, a portion of the sales tax collected from certain types of businesses directly related to motor vehicles (such as motor vehicle dealerships, gasoline stations, and auto-parts stores) is earmarked to the Comprehensive Transportation Fund (CTF) to help fund public transportation programs. The portion earmarked to the CTF equals 27.9% of 25% of the auto-related sales tax collected from the first 4.0% of the overall 6.0% sales tax. The Governor is proposing that the percentage share going to the CTF be reduced from 27.9% to 24%. This would reduce CTF revenue, and increase GF/GP revenue, an estimated \$10.6 million in FY 2003-04.

**Revenue Sharing Reserve Transfer.** Public Act 679 of 2002 eliminated the need to reserve a portion of the July through September sales tax collections for the purpose of making the October constitutional revenue sharing payment beginning in FY 2003-04. Instead, sales tax revenue collected during FY 2003-04 will be used to make the October payment. As a result, this accounting change results in a one-time savings of \$198.6 million. The Governor is proposing that this \$198.6 million be transferred to the SAF in FY 2003-04.

**Lottery Games.** The Governor is proposing that two new lottery games be started in FY 2003-04, to help generate additional revenue for the School Aid Fund (SAF). These games would include a new expanded keno game and begin a "break-open" type game. It is estimated these new games will generate an additional \$50 million in FY 2003-04.

**Diesel Tax.** The tax on diesel fuel is currently 15 cents per gallon. The Governor is proposing that this tax be increased by 4 cents per gallon to 19 cents per gallon. This increase would make the diesel fuel tax equal to the current 19-cent-per-gallon tax on gasoline. It is estimated that this increase would generate \$38.7 million in additional revenue for the Michigan Transportation Fund in FY 2003-04.

**School Bond Loan Fund.** It is proposed that bonds issued to help finance loans to schools through the School Bond Loan Fund be paid off early and reissued at a lower interest rate. The State has issued \$600 million in bonds on behalf of schools borrowing through the School Bond Loan Fund. This \$600 million is owed to the State by the schools; however, the State has been paying debt service on these bonds and only \$500 million of the bonds are still outstanding. As a result, refinancing \$600 million in bonds when the State only owes \$500 million, would generate a net one-time gain for the State of \$100 million. The Governor is proposing that this \$100 million be deposited in the SAF.

## Revenue Estimates

Revenues totaling an estimated \$37.6 billion will be available in FY 2003-04 to support Governor Granholm's proposed budget. This represents a 1.3% decrease from the revised revenue estimate for FY 2002-03. These total State government revenues include revenue from taxes, fees, interest, licenses and permits, penalties, fines, Federal aid, and carryover balances. [Table 3](#) presents the overall State budget revenue estimates for FY 2002-03 and FY 2003-04, broken down by major fund.

Two of the major funds in the overall State budget are the General Fund/General Purpose (GF/GP) and School Aid Fund (SAF) budgets. These two funds will account for an estimated \$21.1 billion, or over half of the total revenue estimated for FY 2003-04. These GF/GP and SAF revenue estimates are the consensus estimates adopted by the Granholm Administration, Senate Fiscal Agency, and House Fiscal Agency at the January 14, 2003, Consensus Revenue Estimating Conference. These estimates include baseline revenue (which is the revenue that would be realized if there were no changes in the tax structure from one year to the next), the fiscal impact of enacted and proposed tax changes and one-time revenue adjustments, grants and transfers, Federal aid, and beginning carryover balances.

**General Fund/General Purpose Revenue.** As shown in Table 4, GF/GP revenue is expected to total \$8.59 billion in FY 2003-04, which is down 2.2% from the FY 2002-03 estimate. While revenue from ongoing sources is expected to be up \$108 million, or 1.3%, revenue from beginning balances and one-time revenue adjustments is down from their respective levels in the FY 2002-03 budget. The Governor's proposed budget includes \$400 million in revenue from tax policy changes and one-time adjustments, which is down from the \$590 million in one-time adjustments built into the FY 2002-03 budget. In addition, the FY 2002-03 budget had a carryover beginning balance of \$114.5 million, and the FY 2003-04 proposed budget has no beginning balance. The Governor's GF/GP budget for FY 2003-04 also includes \$108.6 million from proposed tax policy changes, and \$10.6 million in additional sales tax revenue that is currently going to the Comprehensive Transportation Fund, both of which are discussed above. The one-time revenue adjustments, which total \$280.8 million, include \$268.8 million savings from reduced revenue sharing payments, \$2.0 million from the sale of State property, and a \$10 million transfer from the Employment Security Contingent Fund.

**School Aid Fund.** School Aid Fund revenue available for spending in FY 2003-04 will total an estimated \$12.47 billion, and is summarized in Table 5. The SAF revenue estimate for FY 2003-04 includes ongoing earmarked tax and lottery revenue totaling an estimated \$10.85 billion, no grant from the GF/GP budget, Federal aid of \$12,169.3 million, \$50 million from two proposed new lottery games, \$20.3 million from the tax policy changes, and \$298.6 million in one-time revenue adjustments. These one-time revenue adjustments include transferring to the SAF \$198.6 million of revenue sharing reserve funds and refinancing School Bond Loan Fund bonds, which will net the SAF an estimated \$100 million.

**Transportation Funds.** Revenue going to the various transportation-related funds will total an estimated \$4.31 billion in FY 2003-04, which is up 3.0% from FY 2002-03. Some of this increase is due to a proposed increase in the diesel fuel tax from 15 cents per gallon to 19 cents per gallon, which would generate an estimated \$38.7 million in FY 2003-04.
